

PLEASE REVEIW BEFORE PROCEEDING

Teacher supply lists are generic - they include items that we either provide or are not permitted. Please do not bring individual irons, craft irons or any other type of iron to class. Please review the class info page on www.road2va.com for more information.

New Beginnings Fusion Quilt Supply List

Description

To create a fusion quilt, individual quilt blocks are crocheted together using just three basic crochet stitches. The pattern includes the instructions and crochet pattern, a template for marking your blanket stitching, and a full-page colored diagram showing how to put it all together. In the class we will make a 4-block table mat to practice crocheting around the individual blocks, and then connecting them all together. You can make yours bigger – you will still be able to practice putting a few blocks together.

Supply List:

- The New Beginnings Fusion quilt pattern
- Aunt Lydia's Fashion Crochet thread in Size 3 (approx. 7 skeins of the Crochet Thread makes the full size quilt)
- Size D Crochet hook
- Basic stitching supplies:
 - Scissors
 - Any other tools or supplies you like to crochet with

Prework:

Please have a minimum of 4 blocks made and blanket stitched so you are ready to practice crocheting and joining techniques. Refer to my tutorials at www.tulipcottagequilts.com for tips and tricks to make the blocks and get you started.

- **Tips for choosing fabric/block design: Blocks can be simple 6 ½" squares or they can be pieced, appliqued, or embroidered. The sky is the limit. Keep in mind the blocks finish at 5 ½" with a ½" seam allowance so for best results use quilt designs without points such as a four -patch or rail fence.
- *** When choosing batting, scraps from quilt layering work great! I recommend using Quilter's Dream batting over other cottons because there is no scrim to impede your needle when blanket stitching the edges. It is also thin enough to lay nicely on your table. If you are using other batting types, please keep in mind that it may cause shrinking distortion in your blocks if you need to wash it.
